

Hey you!

get back to work!

This app is all about getting you to focus more on school. It keeps track of your schedule to keep you sharp.

3 When you open an app that distracts you from schoolwork, Bill will immediately notice and his running speed will suffer from it...

1

Bill is a runner who is trying to get fit while you focus on your schoolwork. The better you focus, the fitter Bill gets. But that also works the other way around...

2

The app has an ongoing notification in the notification drawer that shows Bill's progress in a motivating way.
